Going Out to the Movies is One of the Most Affordable and Most Popular Forms of Entertainment

Movie theaters continue to draw more people than all theme parks and major U.S. sports combined. Going to the movies is one of the most affordable entertainment outings for families – with admission prices remaining significantly lower than alternative entertainment options.

The Movies

Number of Films Released Increased Slightly While Production Dipped

After staying relatively flat between 2006 and 2007, the number of films released domestically in 2008 increased 1.8% to 610 films. Films produced in the U.S. dropped 20.7% in large part due to economic and labor issues.

Films Rated, Produced and Released Domestically: MPAA, Nielsen EDI, and Other Industry Sources

	1999	2000	2001	2002	2003	2004	2005	2006	2007	2008	% Chg 08 vs. 07
Films rated	677	762	739	786	940	871	931	853	839	896	6.8%

Screens

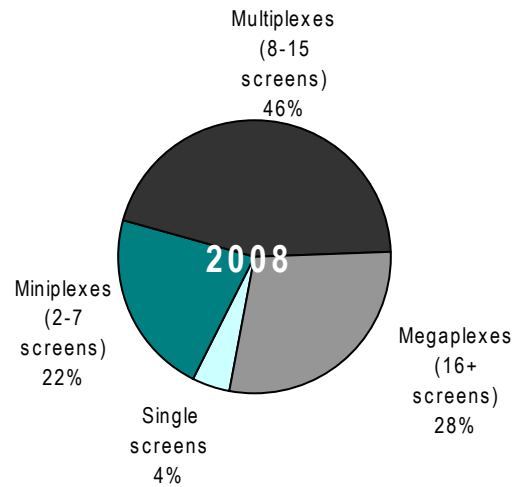

The Number of Large Multi-Screen Theaters is Increasing

While the total number of theaters remained flat at 6,269 in 2008, the market continues to shift toward theaters with more screens. Over the past three years, the number of theaters classified as miniplexes (2-7 screens) has declined 6.2%, while the number of megaplex theaters (16 or more screens) has increased by virtually the same percentage. As a result, the number of screens around the country increased to 40,194 in 2008. Multiplex and megaplex theater screens now represent 74% of all domestic screens.

U.S. Theaters by Theater Type*: Nielsen EDI

	2006	2007	2008	% Change 08 vs. 07
Single screen	1,742	1,748	1,747	-0.1%
