**STATEMENT FROM MPAA CHAIRMAN & CEO DAN GLICKMAN
ON PASSAGE OF INTELLECTUAL PROPERTY ENFORCEMENT
BILL**

"Through a truly bi-partisan effort, Congress has re-enforced the significance of creative endeavors and sent a clear message that the protection of intellectual property and American industrial innovation is a national priority. In the motion picture industry alone, more than 1.5 million people are employed, and the provisions of this bill will spur even greater production and jobs for American workers. Republicans and Democrats alike have demonstrated their leadership today and their ability to work together when American economic productivity is at stake."
